

LARGE SCALE EQUIPMENT INTEGRATION

Services description

Concept Naval can help you in the fulfilment of your integration project, from selection to operation. We successfully performed integration of several deck equipment such as :

- Overhead, gantry or deck cranes
- Exhaust gas scrubber system
- Water treatment units & systems
- Deck equipments (winches, windlass, bollard)

In order to guarantee an optimal selection and operation of your equipments, we offer the following services :

- Feasibility study & cost estimate
- Selection support
- Impact on stability study
- Quotation package, including production drawings
- Construction support and surveillance
